

Personal information

Name Marcel de Koster
City Almere
Date of birth 27-2-1974
City of birth Medemblik
Marital status Married
Drivers license B
Email marcel.de.koster@etrix.nl

Education

General VWO
TUD industrial Design

Computerij opleidingen:

- C programming
- Structure programming
- Introduction to Information Science

Silvac opleidingen:

- Introduction AS/400
- CL programming
- DB2/400
- RPG/400 programming

ICT IBM:

- WebSphere Studio
- WebSphere Application Server Development
- WebSphere Portal Server Development

Cap Gemini:

- RUP Requirements
- RUP Analysis & Design

Certificates

ICT SUN:

- Sun certified Java Programmer for Java 2 platform

ICT Summary

Hardware	AS/400, PC
Operating system	Os/400, Linux, Unix, Windows
Software	MS Office, Visio
Programming tools	IBM WSAD v4+5, IBM Rational Application Developer 6+7, IBM Rational Software Architect 6+7, Eclipse v1+2.x+3.x, VisualAge for Java v3.5 EE, Netbeans v5+6
Messaging	IBM WebSphere MQ v5+6, WebServices
UML	IBM Rational Software Architect 6+7, Rational Suite v2003, OMONDO (Eclipse UML)
Application servers	WebSphere v2+3+5.1+6, Tomcat v3+4+5+6, WebSphere Portal v4.1+4.2+5.1
Databases	DB2/400, DB2 UDB v8, Interbase v6, Oracle v9, MySQL v4+5, SQL Server v2004, Firebird v1.5+2.x
Programming languages	Groovy, Java, JSP, XML, XSLT, HTML, RPG, CL
Branche	Finance
Open source	Spring v1.2+2.x, Hibernate v3.x, Maven v1+2, Struts v1.x+2, Tomcat v3+4+5+6, Log4J, Xalan, Xerces, Ant, Eclipse, Netbeans, Jetspeed v1.4+2, Axis v1+2, XFire, Ajax
Job	Teamlead/Technical lead, Coach, Senior java/WebSphere developer

Experience

ING	May 2008 - October 2008
Job	senior java/WebSphere developer
Software	IBM Rational Application Developer v7
Programming languages	Java, XML, JSP, HTML, JavaScript
	<u>STARlite:</u> STARlite is process driven credit and risk application which integrate all separate applications from the STARpro suite into one process. This process is aiming at improving the speed of the credit risk registration for standardized credits. To accommodate the process, a process definition tool, called questionnaire, is also part of the development for a flexible and configurable 'wizard' process.
Description	
	<u>APWebCommon:</u> Development of a JavaScript component library with DOM manipulation. Data is provided using Ajax JSON data. JsUnit and JsMock, which was introduced by me, are an important part of development. Also a thorough technical design with UML diagrams is now part of development thanks to my effort.
Details	Spring 2.5.1, Struts2, Big faceless (PDF library), jQuery, XStream

Rabobank International Januari 2007 - April 2008

Job Senior java/WebSphere developer, Software Architect
Software IBM Rational Application Developer v6+7, WebSphere Portal Server v5.1
Programming languages Java, XML, JSP, HTML, LDAP, JavaScript

RaboTreasuryWeb:

A Portal application for Rabobank International users. Development was focussed on creating generic components. A Logon Portlet and Selfcase Portlet was one of these components.

RADAR:

Maintenance and development on the CRM portal of Rabobank International. My role was to introduce Spring and Maven2 to improve the development and build cycle. As technical lead the main focus was on improving the development life cycle using a continuous integration environment called Continuum. The EJB's, WebServices and Portlets were part of the maven2 build.

Description

RFLP - Fulfillment:

As technical lead I choose Spring Webflow and Spring Portlet MVC with hibernate on DAO layer. Here new concepts were developed to improve the fulfilment process, like flow scoped beans, sub flows, OpenSessionInView and Breadcrumbs, within Spring and Spring WebFlow.

Salesforce.com:

As Software Architect I created the SAD (Software Architecture Document) to integrate salesforce.com with existing legacy Rabobank International systems. A proof of concept was one of the deliverables.

WebSphere Portal Server, MQ, LDAP, Spring 2.5.1, Spring WebFlow 1.0.5, Spring Portlet MVC 2.5.1, Maven2, Continuum 1.1, Hibernate 3.2.6ga, EJB2, WebServices, jQuery

Details

Fortis Bank

Febuari 2005 - December 2006

Job Technical lead, Senior java/WebSphere developer
Software IBM Rational Software Architect v6+v7, WebSphere Portal Server v5.1
Programming language Java, XML, JSP, HTML

Sirius Distribution:

A generic Portal framework/platform for Commercial, Private and Merchant banking which will be used by Fortis employees and professional bankers. Part of the work was R&D to create components for applications part of Sirius.

Description

eGMK (electronic Global Markets):

Portal for Global Markets for professional bankers. My role as senior developer was to redesign and implement the user management portlet and design and implement the option trading portlet. The design of the trading server was also part of the job.

Software	WSAD v4.0.3, Together J v4, CVS, mySQL
Programming languages	Java, JSP, HTML, SQL
	<u>Weburen 3:</u>
Description	Design and implementation of an hour registration system for the web.
Details	Struts, Espresso, Log4J, Internationalization
Equality	Oktober 2001 - december 2001
Job	Java developer
Software	Eclipse
Programming languages	Java, SQL
	<u>DBIO taglibrary:</u>
Description	Design and implementation of a taglibrary for managing database labels
Equality	Juni 2001 - september 2001
Job	java developer
Software	WSAD v4
Programming languages	Java, SQL
	<u>DBQuery:</u>
Description	Design and implementation of a platform independant command line client for any particular database with a JDBC driver.
INFO.nl	April 2001 - september 2001
Job	Java/WebSphere developer
Software	WSAD v4, Together J v4, Tomcat, VisualAge for Java, CVS, WebSphere Application Server v3.5.3
Programming languages	Java, SQL, JSP, HTML, XML, XSLT
	<u>Personal Rabo:</u>
Description	Design and implementation of parts of the rabobank.nl site.
Details	Struts, Log4J, Ant, Xalan

Equality **Januari 2001 - maart 2001**
Job Java/WebSphere developer
Software WebSphere Studio v3.5, VisualAge for Java v3.5, Together J v4, WebSphere Application Server v3
Programming languages Java, SQL, JSP, HTML, XML
Description Equality Framework:
Desing and implementation of an MVC xml configurable frame work where presentation and model where two seperate libraries and could be used independently.

Weburen 2:
Implementation of a new and improved Weburen based on the Equality Framework.

Equality **Juli 2000 - januari 2001**
Job Java/WebSphere developer
Software VisualAge for Java v3.5, Together J v4
Programming languages Java, XML
Description Equality Framework:
Design/ontwerp/ontwikkelen van een framework voor een XML gestuurd web applicatie.
Details Xerces

ABNAMRO **Maart 2000 - januari 2001**
Job Java/WebSphere developer
Software VisualAge for Java v3.0.2, WebSphere Studio v3, MQ Series, SELECT Enterprise v6
Programming languages Java, JSP, HTML, XML
Description Internet bankieren:
Design and implementation of the online banking site of ABNAMRO. My main focus on the project was on the payments part.

Equality **Oktober 1999 - februari 2000**
Job Junior java/WebSphere developer
Software VisualAge for Java v2+v3, WebSphere Studio v1+v3, WebSphere Application Server v2
Programming languages Java, SQL, JSP, HTML, XML
Description Weburen 1:
Design and implementation of an hour registration tool using the new IBM WebSphere Studio tools.

AVR **Augustus 1998 - oktober 1999**
Job RPG programmer

Software DFU, SEU
Programming languages RPG/400, CL
Description Implementation of new functionality on JDEdwards (ERP) system used at AVR for waste administration. Also implemented a lot of integration program in RPG to integrate with other systems.

Equality April 1998 - juni 1998
Job Trainee
Software DFU, SEU
Programming languages RPG/400, CL
Description Education as AS/400 RPG programmer via Silvac opleidingen.
